Materials Required

- Pen or pencil and eraser
- Questions sheet with blank thank you note template

Overview

Activity Introduction

This task-based activity uses a blank thank you note template. In Lesson 6 the term “thank-you” is introduced. Discuss the use of thank you cards as a way to show gratitude. Ask if they have ever given someone a thank you card or note with a personal message.

New words

Review the new words that are being introduced. Explain the meanings of the words to the learner. Not all new words are in the new word list. You may need to review additional words as the learner works through the activity.

Instructions

Have the learner fill in their name and the date. Have the learner complete the pre self-assessment. Have the learner think of someone they would like to thank and complete the brief thank you note. When they have completed the activity have the learner complete the post self-assessment. After the learner has completed the task-based activity complete the assessment section and review the results with the learner.

Extension activities

- Use the template and have the learner write a variety of thank you notes to different people.
